Spring 2024

Volume XXVI

## LETTER FROM THE PRESIDENT

Welcome spring! It's such a busy season trying to keep our own gardens looking nice while finding time to explore other gardens, do a wildflower hike, or enjoy life in San Diego.

Last fall was a great start to our updated club activities. The Monday night meeting time was successful. We know that it's not ideal for everyone, and we hope that everyone can find some activity in our group to stay connected. For the remainder of our schedule, we have two club activities planned - hope to see you at some of these!

We've reinstated the plant raffles at the meetings. It's a good way to get introduced to a new native plant. Many thanks to Peter Benson who has taken the time to purchase the plants and bring them to the meetings.

*Follow us on  
Facebook &  
Instagram*

We are continuing to increase our activity on social media - Facebook and Instagram. Did you know we have over 300 followers? Now we just have to get folks more involved. There are a few positions we would like filled; we are looking for a membership chairman and for an editor for the newsletter.

Check out the calendar for the remainder of the year. If you have any program or activity suggestions for next year, or just want to give the board some feedback, you can mail us at:
